

TRAVEL THE ARAB WORLD THROUGH ITS ARABIC.

YOUR ARABIC DOESN'T RESTART AT THE BORDER. IT EVOLVES.

Arabic learners often discover that knowing Arabic is not the same as knowing what feels natural in a particular place. MANARA turns the Arab world into an immersive learning journey, helping each learner adapt the Arabic they already know - or begin from zero - through real people, situations and everyday speech.

39 real city nodes
in the network vision

4 immersive prototype
scenarios

4 learner starting points
supported

ONE CONVERSATION. ONE USEFUL SHIFT.

MANARA begins with communication, then adds context only when it helps. The learner never leaves the social moment to enter a lesson screen.

ARRIVE

01

Choose Abu Dhabi. Enter a café with a clear social goal.

SPEAK

02

Hear Arabic, then answer by voice, text or guided support.

ADAPT

03

If meaning is clear, the Local Guide may offer one more locally useful option.

REUSE

04

Try it immediately. The Local Character continues naturally.

YOU SAY

عايز قهوة

MANARA UNDERSTANDS
MEANING COMMUNICATED ✓

TRY IN THIS MOMENT

أبغي قهوة

The mechanism is the innovation: understand first, add context with care, then let the learner reuse it without breaking immersion.

PERSONAL ENOUGH TO REMEMBER. STRUCTURED ENOUGH TO SCALE.

PERSONAL

YOUR FUMBLE MAP

CAIRO → ABU DHABI

MANARA IS LEARNING

HOW YOU LEARN.

Not a grade. A record of movement.

COMMUNICATING WELL
Café ordering

ADAPTING LOCALLY
Request forms in Abu Dhabi

SUCCESSFUL RETRY
Used a local alternative successfully

TO REVISIT
Direction vocabulary

Completed conversations become useful signals: what communicates, what adapts, what worked on retry and what deserves another moment.

ENHANCED PROTOTYPE VISUALIZATION

SCALABLE

THE ARAB WORLD AS A LEARNING NETWORK

The prototype activates Abu Dhabi and Cairo across four scenarios, previews Casablanca, and places them inside a 39-city network vision. The same destination and scenario structure can expand city by city as content is reviewed.

ABU DHABI + CAIRO

4 active prototype scenarios

ARABIC-CENTERED

VARIATION IS CONTEXT, NOT FAILURE.

MANARA respects MSA, dialect and heritage Arabic as knowledge the learner can carry forward.

PERSONAL BY DESIGN

SUPPORT CHANGES. ACCESS DOES NOT.

Beginners, MSA learners, dialect learners and heritage speakers enter the same world from different starting points.

TECHNICALLY FEASIBLE

TEACHING LOGIC STAYS IN CONTROL.

Optional conversational AI can make interactions more flexible; it does not decide what MANARA teaches.

MANARA moves Arabic beyond classroom abstraction. Place, culture and social context become part of the learning moment - without asking learners to discard the Arabic they already carry.

LEARN ARABIC NOT AS ONE DESTINATION, BUT AS A WORLD YOU CAN MOVE THROUGH.
